Presidential Address

Time to return to the Gateway Clipper for a Dinner Cruise and a great social evening! This will be a good opportunity to make new acquaintances and re-new old ones.

The executive committee has been working with Lands' End to have a line of apparel for our membership with the new MLBC Logo. The sample of the stitched logo looks wonderful and I am looking forward to shar-

ing this line with the membership.

We have a Membership Directory Committee working to publish the 2013-2014 Directory. Crystal Murphy of Tioga Resources is the Committee Chair and she will be working with Steve Johnson of Petroleum Development Corporation. Over the next few months they will be asking each and every member to update their contact information

online. They will also be contacting past advertisers for their support as well as looking for new ads. With the membership almost double since the last directory there will be ample space to accommodate several new advertisers. Crystal and Steve hope to assemble the most complete and accurate directory ever and have it printed and distributed to the membership next spring. Be sure to watch for deadlines. This will ensure the publication is completed in a timely manner. A big Thank You to Crystal and Steve.

I look forward to see everyone on the Gateway Clipper.

Secretary's Report

The MLBC held a summer meeting at Salt Fork Lodge near Cambridge, Ohio on July 11 where Tim McKeen with Steptoe & Johnson addressed the crowd of over 100 with his entertaining and relevant discussion on "Ohio Title Issues." Great job Tim and we hope to have you back to speak again soon!

Over the past few years our association has experienced considerable growth. With growth comes the need for volunteers who can contribute time and new ideas to help the association provide information and opportunities to its' members. For those of you who have expressed an interest with committee work, we plan to have you involved very soon. For anyone else that feels they can dedicate some time and energy to help the association, please feel free to contact me.

Near-term committee work includes:

- A printed membership directory (in addition to the website directory)
- A membership drive (for people practicing land work who aren't members of the AAPL or the MLBC)
- Fall golf at Nemaquin on September 13
- Planning for the 2nd Appalachian Land Institute (to be held in Morgantown, WV in October)
- MLBC online store to purchase logo gear

Finally, PLEASE KEEP YOUR CONTACT INFORMATION UP TO DATE ON THE WEBSITE! This is how the association reaches you for meeting notices, election ballots and renewal information. This might also be how a prospective employer attempts to reach you for a job opportunity, so be sure to update your info should you change jobs, e-mail address, phone number, etc.

Be active with the MLBC and get to know the Landmen of one of the nation's largest local AAPL associations.

Implied Covenant to Develop in Ohio Negated by Express Language in Lease: *Bilbaran Farm, Inc. v. Bakerwell, Inc. et al.*

On June 12, 2013, Ohio's Fifth District Court of Appeals held that a general waiver of implied covenants in an oil and gas lease negates the lessee's duty to develop other formations and acreage.

In 2003, Bilbaran Farm, Inc. leased 275.67 acres to Professional Petroleum Services, Inc. After drilling three wells in the Clinton formation, Professional assigned the lease to Bakerwell, Inc. The lease stipulated "no implied covenants...have been made or relied upon by the [parties][.]"

Bilbaran filed suit against Bakerwell to release the undeveloped formations and additional acreage from the lease. Bilbaran argued the Defendants' inaction defied the purpose of the original assignment of fully developing the property for oil and gas extraction and thus, the lessees relinquished their rights in the undeveloped property.

The appellate court disagreed with Bilbaran's argument and held that the express general waiver contained in the lease was sufficient to disclaim Ohio's implied duty to develop the land, thus relieving Bakerwell of its duty to develop the other formations and undeveloped acreage for oil and gas production.

This case further cements the precedent that an implied covenant to develop leased property can be expressly disclaimed by a general waiver. [Click here](#) to read the opinion.

Golf outing benefits WVU Children's Hospital

MORGANTOWN, W.Va. – The Michael Late Benedum Chapter (MLBC) of the American Association of Professional Landmen (AAPL) held its Fifth Annual Spring Charity Golf Event benefiting [WVU Children's Hospital](#) on May 9 at Stonewall Resort.

A total of 136 MLBC members and guests came out to show their support of the chapter and the hospital. Through the generosity of the members and member companies who sponsored the event, the MLBC made a donation of \$30,000 to WVU Children's Hospital.

"The MLBC is fortunate to have such a generous and caring membership to make this donation possible," Richard Robb, current MLBC president, said.

The donation will be allocated to WVU Children's Hospital's new building fund and the [Neonatal Intensive Care Unit \(NICU\)](#). Monies donated to the NICU will be used to purchase isolette covers, informational packets for families who have babies in the NICU, books for a lending library, family support meetings and family meals.

"We appreciate the continued support of the MLBC. With their help, we are able to care for the tiniest patients in our hospital and support the families of those patients during one of the most difficult times of their lives," Cheryl Jones, R.N., director of WVU Children's Hospital, said. "We look forward to extending our partnership with the MLBC long into the future."

The MLBC is the Bridgeport-based chapter of the American Association of Professional Landmen, an international organization with members throughout the United States and Canada. Its purpose is to represent men and women engaged in all forms of land matters within the oil, gas and mineral industries. Particular emphasis is placed on ethics, education and public involvement.

PA Governor Corbett Signs Act Providing for Mandatory Disclosures in Royalty Statements

Pennsylvania Governor Tom Corbett signed SB 259 on Tuesday, July 9, 2013. The legislation requires natural gas producers operating in Pennsylvania to standardize all deductions listed on royalty check payment stubs. More specifically, producers must include well identification information, the net value of total sales after deductions, the owners' interest in sales from the lease, and the total amount of severance and other production taxes and other permitted deductions on royalty statements provided to their lessors. The legislation does not authorize forced pooling but clarifies that operators can cross lease lines to develop the gas under existing leases and provides clarity with regard to the allocation of royalty among royalty owners. The legislation becomes effective September 7, 2013.
