

AMERICAN ASSOCIATION OF PROFESSIONAL LANDMEN

The AAPL recently created a program to allow graduating seniors to take the RL exam. Six graduates from Marietta College's Energy and Land Management program took advantage of this opportunity. The MLBC commends them for their efforts and wishes them well in their future endeavors!

LETTER FROM THE PRESIDENT

MLBC PRESIDENT, LHAG BOWERS

CONTINUOUS IMPROVEMENT

"Life is growth. You grow or you die." -Phil Knight, co-founder of Nike.

"Ponder over these things; be absorbed in them, so that your advancement may be plainly seen by allpeople."-1 Timothy 4:15

Growth is one of the wonders of life. From a seed the size of an oat flake, the Giant Sequoia tree can grow to almost 30 feet in diameter and over 300 feet tall. The largest animal ever recorded to roam the planet, the Blue Whale, can grow to around 100 feet long and 300,000 pounds, but starts out life so small that it is only visible under a microscope. By the time we start our careers as landmen, most of us have finished our physical growth and are likely trying to prevent the additional growth threatening our midsections. However, all of us should be focused on personal and professional growth and development. Why? Let's consider two basic reasons.

The world is constantly changing. Some landmen working today recall tapping out leases on a portable typewriter, finding landowner phone numbers in a paper phone book and calling them from a pay phone. Every title exam started with a review of the hard copy land books and scanning the ridiculously heavy index books in the courthouse. Acquired leases were painstakingly mapped with colored pencils on taped together prospect maps. The landman that didn't grow would struggle to do his/her job today with the computer, cell phone, online research and web-based databases. We cannot rest on our past successes. Continuous improvement means not just keeping up with technology but being prepared to embrace it. Future success requires we recognize that what got us here, won't get us there.

Our employers and clients rightfully expect improved efficiency and productivity. Innovations in technology and process efficiency allow us to do things better and faster. Perhaps you've heard it said "What gets measured, gets improved". Our employers and clients most certainly have and many of them very carefully keep track of key performance indicators in an effort to increase performance while maintaining quality. This focus on continuous improvement should reach down to each of us. How can we do our jobs better and how can we assist those around us to benefit from the shortcuts and tricks we've learned?

What does the future of our industry look like? It's hard to see the specifics of what that future will hold, but no doubt changes are coming. Having a personal core value focused on Continuous Development will allow each of us to continue to meet the ever-changing needs of the energy industry.

"We can't become what we need to be by remaining what we are." - Oprah Winfrey

2024 MLBC Corporate sponsors

BRONZE

MI

BRODMAN MUST O'KEEFE

2024 CORPORATE SPONSORSHIP LEVELS

PLATINUM: \$5,000 PER YEAR

Benefits of Platinum Sponsor:

- Logo on the corporate sponsor board at every meeting along with the meeting sponsor board (virtually or in person).
- Logo in every edition of The Wildcatter and the bottom of every membership email.
- Receive three meeting/dinner passes for each meeting for one year.
- Receive two free full page advertising ads in The Wildcatter per year.
- Logo on golf outing sponsorship boards.

GOLD: \$2,500 PER YEAR

Benefits of Gold Sponsor:

- Logo on the corporate sponsor board at every meeting (virtually or in person).
- Logo in every edition of The Wildcatter and the bottom of every membership email.
- Receive one free half page advertising ad in The Wildcatter per year.
- Logo on golf outing sponsorship boards

SILVER: \$1,500 PER YEAR

Benefits of Silver Sponsor:

- Logo on the corporate sponsor board at six meetings (virtually or in person)
- Logo in every edition of The Wildcatter and the bottom of every membership email.
- Receive one free half page advertising ad in The Wildcatter per year.

BRONZE: \$750 PER YEAR

Benefits of Bronze Sponsor:

- Logo on the corporate sponsor board at three meetings (in person or virtually).
- Logo in every edition of The Wildcatter.

ADVERTISING IN THE WILDCATTER:

Full Page Ad \$500/month

Half Page Ad \$250/month

Dinner Meeting Sponsorship

Cost \$250.00 per meeting. Companies will receive advertising at the dinner meeting as well as your logo displayed on our website for the month of the meeting you sponsor

For more information or to purchase a Corporate Sponsor package or advertise in the The Wildcatter, please contact Abby Veigel @ <u>abbyveigel@mlbc-aapl.org</u>. Please contact Harry Heinbaugh at <u>harry.heinbaugh@percheronllc.com</u> for dinner meeting sponsorships.

LEGISLATIVE & REGULATORY UPDATE

By Nikolas Tysiak, Legislative and Regulatory Chairman

A few cases to report on this month.

Griffin v. Toland, 2024 WL 2269941 (W. Va. S. Ct. May 20, 2024). In a memorandum decision (i.e. – without oral arguments), the West Virginia Supreme Court sought to interpret intentions of the parties to a 1976 deed containing oil and gas reservation language. Hazel L. White acquired all the surface and ½ the oil and gas under a tract of 82 acres during her lifetime, one-half the oil and gas having been properly and effectively reserved by a predecessor in title pursuant to a 1943 deed. By deed dated June 29, 1976, Hazel White conveyed the 82 acres to Timmie and Vickie McMillan, with an exception of ½ the oil and gas. The exception language in the June 29, 1976 was reportedly identical to the reservation language used by Hazel White's predecessor in title to retain the "other" ½ of the oil and gas via the 1943 deed. The 82 acres was purportedly conveyed multiple times following the June 29, 1976 deed, all containing language nearly identical to both the 1943 deed and the June 29, 1976 deed. Griffin, as successor to Hazel White, filed a declaratory judgment action claiming rightful ownership of the ½ oil and gas interest purportedly reserved under the June 29, 1976 deed, as against the current surface owners (Toland). The trial court found in favor of Toland, stating that the June 29, 1976 deed was ambiguous as to Hazel White's intent – the language does not indicate whether Hazel indicated to retain the "remaining" one half of the oil and gas. After allowing parol evidence, the trial court found that none of the parol evidence regarding Hazel White's intent at the time of the June 29, 1976 deed was enough to overcome the legal holding that ambiguity in a deed must be construed most strongly against the grantor. The Supreme Court agreed that the June 29, 1976 was ambiguous but further held that the ambiguity presented a material issue of fact, so sustaining a motion for summary judgment regarding the situation was inappropriate. The case was remanded to the trial court for further proceedings.

Callen v. Foertsch, 2024 WL 2176673 (Pa. Super. Ct. May 15, 2024). Also in a memorandum decision (non-precedential), the court was confronted with a question of whether a joint tenant with right of survivorship effectively broke the joint tenancy and created a tenancy in common before her death. Dan Callen and Elaine Callen-Foertsch inherited a tract of land as joint tenants with the right of survivorship in 1990. They jointly leased the land in 2009, each receiving ½ the royalties. After Elaine's death in November 2021, her daughter, Mae Foertsch, recorded a "Pennsylvania Gift Deed" whereby Elaine purports to convey all her interest in land in Butler County (including the land at issue) to Mae. Dan maintained that, as the surviving joint tenant, all title to the land, and therefore the oil and gas royalties, passed to him by operation of law. Rather than deciding on the facts, the Superior Court issued an order based on the most technical of technicalities, holding that the appeal from the trial court was not appropriate because the appeal occurred before the trial court issued a true final order. The trial court had only quieted title in favor of Dan Callen, but failed to dispose of a counter claim for monetary damages by Mae Foertsch. Consequently, the case was remanded back to the trial court for further proceedings.

In Tera, L.L.C. v. Rice Drilling D, L.L.C. (2024-Ohio-1945), the Ohio Supreme Court faced a "bad-faith" trespass claim by the landowners (Tera) against Rice, claiming that operations in the Point Pleasant formation was a violation of the terms of the executed leases, which only specified the Utica and Marcellus formations as being affected. Both the trial court and intermediate appeals court (Ohio 7th district) agreed with this reasoning, granting and affirming a motion for summary judgment on the issue of trespass, respectively – stating that there was no triable issue of fact based on the language of the leases. The Supreme Court of Ohio disagreed on procedural grounds, finding that a triable issue of fact did exist, as the meaning of the phrase "the formation commonly known as the Utica Shale" could be, and clearly has been, construed to include more than the literal Utica Shale formations. In a great win for the oil and gas industry in Ohio, the motions for summary judgment arising from the bad faith trespass claims were reversed and remanded back to trial to determine what that phrase actually means in Ohio.

Regards, Nik Tysiak Chair – Legislative and Regulatory Committee

Thank you to all of those who braved the weather and joined us for our spring social at the Tropics. What started out as a beautiful night ended with hail and lightning. The Jukebox band entertained us until the elements finally forced them to pack up for the night. Pictures from event can be found <u>here.</u>

A special thank you to our sponsors who made the night possible:

In Memoriam

Kristian E. White

1974-2024

Our beloved partner, friend, mentor, and leader, Kristian White, practiced law at Steptoe & Johnson for over 25 years. He started his career as an associate in our Clarksburg office in 1999 and then spent time in our Wheeling office for more than a decade. In 2010, Kristian was integral in leading efforts to open our Southpointe office, where he served as its Office Managing Member, overseeing the office's growth, for 14 years.

Kristian's diverse practice included work in energy transactions, banking, real estate, commercial transactions, and business organization. As an attorney and Certified Public Accountant, he enjoyed working hand-in-hand with clients to develop business and legal solutions that helped them achieve their goals.

Beyond the practice of law, Kristian was active in his community. Over the years, he served on the Board of Trustees of the Oglebay Foundation, the Board of Directors of the Washington County Chamber of Commerce, the Board of Directors of Pike Cubs Baseball, the Board of Directors of Elmhurst House of Friendship, the Board of Directors of the Southpointe CEO Association, the Board of Directors of the Kiwanis Club of Wheeling, the Board of Directors of the Wheeling Symphony Society, the Board of Directors of The Children's Museum of the Ohio Valley, and as the Past-President of the School Board of St. John Parish School.

Kristian will be greatly missed. Our deepest sympathies go out to his family and friends at this difficult time.

MEMBER ALERT

LEARN MORE

DISASTER RELIEF ASSISTANCE

The AAPL Educational Foundation, Inc. established the Disaster Relief Assistance Program for AAPL members who have suffered financial loss due to severe storms and natural disasters.

If you or an AAPL member you know have been affected by any of the recent storms across North America and would like to apply for a grant, please fill out the <u>Disaster Relief Application</u>.

There are two ways to donate to the Disaster Relief Assistance program:

- To donate online, visit our <u>PayPal page</u> and select "Disaster Relief" in the drop-down menu.
- If paying via check, make your check payable to "AAPL Educational Foundation, Inc.," and specify "Disaster Relief" in the memo. Send check to 800 Fournier St., Fort Worth, TX 76102.

100% of donations to the AAPL Educational Foundation for disaster relief directly assist AAPL members who have suffered losses during these storms and future natural disasters.

The Educational Foundation is a Section 501(c)(3) nonprofit corporation of the Internal Revenue Code of 1954 charted under the laws of Texas. Your donation is tax deductible to the fullest extent of the law. Consult your tax adviser to see how this may apply to you.

For questions, please contact <u>aapl@landman.org</u>.

PROFESSIONAL DEVELOPMENT ASSISTANCE PROGRAM

AAPL has established a Professional Development Assistance Program that reduces the registration fee up to \$300 for AAPL-operated events including <u>Annual Meeting</u>, <u>Energy Institutes</u>, <u>in-person RPL/CPL Certification Exam</u> <u>Reviews</u>, <u>Renewable Energy Certificate Program</u>, <u>NAPE</u> educational events and more.

Assistance is limited to two programs per year. Please request assistance at least two weeks prior to the event date.

AAPL LANDLINE

2023-24 LIFETIME ACHIEVEMENT AWARD WINNER JANE CROUCH, CPL

We are privileged to announce Jane Crouch, CPL, as the 2023-24 Lifetime Achievement Award winner! Jane has been a pillar of AAPL leadership and involvement for over four decades. Her remarkable career, dedication to AAPL and upstanding reputation throughout the industry make her more than worthy of this prestigious award.

"My mom is the best mentor I could ever ask for, holding herself to the highest standards of doing things the right way and treating people with kindness," her son Chris wrote. "Jane's lifetime of volunteer work with DAPL (Denver) and AAPL has provided her with lifelong friendships and an important community."

2023-24 LANDMAN OF THE YEAR AND COMMITTEE MEMBER AWARD WINNER ANDREW COOPER, CPL

We are thrilled to announce Andrew Cooper, CPL, as both the 2023-24 Landman of the Year and the 2023-24 Committee Member Award winner! As co-managing shareholder at Roger A Soape, Inc., Andrew has had an incredible year working in Permian, Eagle Ford, Austin Chalk, Haynesville, Barnett and Marcellus. Andrew has served on countless AAPL and local committees and is currently director for HAPL (Houston), a member of the HAPL Executive Night Committee and is on the NAPE Operators Committee. Andrew has a passion for education and mentorship and is continuously seeking ways to advance the land profession. Congrats, Andrew!

FULL EVENT CALENDAR

Member Spotlight: John T. Catsonis

Tell us a little about yourself.

My wife Caitlin and I reside in Canfield, Ohio, situated in Northeast Ohio's Mahoning County. We are members of St. Christine Roman Catholic Church, and we were married at our church in the summer of 2020. I consider myself extremely fortunate to have married the love of my life and my best friend; we do everything together! My wife and I enjoy spending time with family and traveling whenever our schedules allow. Our favorite location to visit is South Florida, where some of my immediate family also live. I was born in Bradford, PA as my father worked in the land department for Pennzoil at the time, and I spent my childhood in Bradford, PA, Mt. Lebanon, PA and North Canton, OH. After high school, I obtained my Bachelor of Business Administration from Ohio University, double majoring in Finance and Management Information Systems. After finishing my undergraduate studies, I began my career working for Apex Land Corp., our family owned land company.

Who are you currently employed or contracted with?

I am a member of Apex Land Corp., where we primarily manage projects in the oil, gas, and renewable sectors for our clients, while also exploring opportunities to invest in oil, gas, land, and minerals for our own benefit.

How long have you worked in the oil and gas industry? And what states do you have experience? And tell us about any other land organization you belong.

I began my career in 2009 working with Apex. Since that time, I have managed projects in several states, however, the primary region I have experience in is the Appalachian Basin.

I am a member of the American Association of Professional Landmen and the Energy and Mineral Law Foundation.

Tell us about your first position in the industry.

I am a second-generation landman. My late father, Larry W. Catsonis, owned and operated two land-service firms, and my first full-time position in the industry was working for him and managing projects for our clients. In 2009, we had several clients interested in developing and expanding their footprint in the Marcellus. That was such an exciting and remarkable time for the oil and gas industry!

In my role, I had the opportunity to contribute to various aspects of the company, spanning from business development and accounting to land and mineral acquisition, title review, and project management. Looking back, I consider that experience invaluable for deepening my comprehension of the essentials in land, oil and gas development, as well as project management.

Growing up with a father who owned and operated a land-services firm, I had the opportunity to develop land management skills at an early age. During my summer breaks in college, I completed title abstracts, performed lease-checks, and handled curative requirements. Additionally, I worked part-time in high school, updating client leasehold maps with recent acquisitions by our field landmen and competitors. One of my earliest roles involved mapping existing shallow production, overlaying development units on current-day parcel maps, and updating our lease takeoffs accordingly. These experiences provided me with a solid foundation in land administration duties from a young age.

What areas of the industry do you have experience in?

I remember in 2009, I was at a NALA meeting in Olean, NY, at a venue known as The Old Library, and I was speaking to a veteran of the oil and gas industry, who told me that oil and gas development is just one aspect of land, and there are many other components of land and land-work that fall outside the oil and gas development. I always thought this was a simple and concise explanation, but hearing a mentor express this verbally has allowed me to view land and the associated opportunities associated therewith more comprehensively. I have always remembered that conversation and the concept of examining land more holistically.

Member Spotlight: John T. Catsonis

With that said, I have been primarily engaged in the acquisition, completion and development of oil and gas in the Marcellus and Utica territories within the Appalachian Basin. Entering the industry in 2009 during the Marcellus "boom" was an incredible and, I believe, historical period for the oil and gas industry and the Appalachian region.

I have just over 15 years of experience, I possess a thorough background in the oil and gas sector of land management. My expertise spans both in-house and client-facing roles, collaborating with exploration and production firms as well as non-operators. Within this realm, I've handled diverse responsibilities and duties, such as project takeoff, leasehold acquisitions, working interest acquisitions, clearing units for development, title review, and project management, among others. Over the years, I've refined these skills, honing them through independent and in-house work.

In addition, I have worked in varying capacities in the renewable sector, midstream, fee land and mineral acquisition and the acquisition of commercial property interests.

Do you have a mentor in the industry? Can you provide details?

My late father, Larry W. Catsonis, stands as my ultimate mentor in the industry. Without his guidance and instruction, I wouldn't possess the knowledge and background I have today. His fervor and expertise in oil and gas, alongside land management practices, profoundly shaped my understanding. While I could delve into countless anecdotes, what truly matters is the privilege I had of working dosely with him, not just as a boss or business partner, but also as a mentor and friend; I am forever grateful to have been able to have those experiences with him.

How long have you been a member of the MLBC. Do you currently have any certifications through the AAPL?

I have been a member of the MLBC and AAPL since 2011. I plan to sit for my CPL exam later this year.

What benefits have you found as a member of the MLBC? What are your favorite aspects?

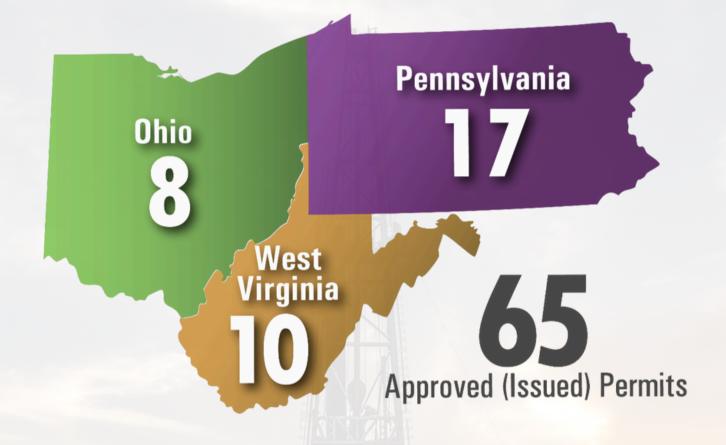

I have found several benefits to being a member of the MLBC. My favorite aspects are the educational sessions, networking opportunities, the charitable donations and the opportunity to advance the development of young professionals entering the industry through our scholarships to energy and land management students.

I would like to add that I do believe the MLBC is comprised of some great land professionals and being involved has afforded me the opportunity to engage with those people I would have otherwise not interacted with; and, I believe as we grow and advance our careers it is always beneficial to cultivate relationships and have personal and/or professional connections with peers and competitors.

Do you serve the MLBC, AAPL, or any other organizations in an executive capacity and/or serve as a committee chair? Are you a member of any committees?

I will be inducted as President of the MLBC on July 1, 2024. I currently serve as Vice President. I am chair of the finance committee; I serve on the technology committee and the scholarship committee. In September of 2023, I had the opportunity to serve the MLBC as substitute Director in the AAPL's quarterly meeting.

WOMEN'S ENERGY NETWORK GREATER PITTSBURGH CHAPTER PRESENTS

S GREATER PITTSBURG

FRIDAY, AUGUST 16TH, 2024

10th Anniversary

SHERATON PITTSBURGH HOTEL AT STATION SQUARE

The Greater Pittsburgh Chapter of the Women's Energy Network is pleased to announce our 10th Annual Gala to be held on Friday, August 16th at the Sheraton Pittsburgh Hotel at Station Square.

The Gala is a celebration of our truly outstanding members and a wonderful way to recognize them for all their accomplishments. Additionally, we are pleased to recognize the wonderful companies who uplift and encourage their female employees as they strive to achieve their goals.

Proceeds from the raffle baskets will be donated to the Western Pennsylvania American Diabetes Association in honor of Mallory Matthews. Mallory was a beloved member of the WEN Greater Pittsburgh community who recently passed away unexpectedly. Mallory was a wonderful friend and coworker who often brought joy to those around her and will be deeply missed.

SHOUT OUT!

Congratulations to the following member(s) recently gaining their Certification through the AAPL:

Richard Jones, **RL**

New members are approved on a monthly basis. If the need arises to move along membership approval (ex. Ohio Landman Registration), please email Abby Veigel - <u>abbyveigel@mlbc-aapl.org</u>

MEMBERSHIP INFORMATION

The MLBC membership application is located on the website at <u>www.mlbc-aapl.org</u>. Please check your information on the website prior to submitting your renewal. The <u>MLBC website</u> has an updated version of the membership listing. Please use this resource if you cannot find yours or others information in the directory. Please report any errors or omissions to Abby Veigel at <u>abbyveigel@mlbc-aapl.org</u>.

Application for membership in the Association shall be subject to the approval by a majority vote of the Executive Committee at a regularly scheduled meeting and shall require the signed approval by the acting President of the Executive Committee, as evidence of the Committee's approval.

Notice of the approved application(s) of all potential Association member(s) shall be printed in the next regularly scheduled publication of the Association. Members shall have the opportunity for a period of thirty (30) days following the publication to object to the potential member's application.
